Publishing Your Family History to the Web

Introduction

Evaluations: Easy Option - Blog

Evaluations: GEDCOM-based Publishing

Evaluations: PHP-based Website

Evaluations: Tailor-made Website

Introduction:

If you can e-mail, upload files, and use a genealogy software program, then you have enough knowledge and experience to create and maintain a Family History web site.

The hardest part is deciding what method you are going to use!

URIDGE, EURIDGE One-Name Study
Registered with the Guild of One-Name Studies (Members)

Welcome to the One-Name Study for Uridge, Euridge
Last Changed Date: 7 January 2007 | [Uridge Blog](#) | [New or Changed Names](#)

URIDGE or EURIDGE is a very unique name with only 121 instances in the UK Office of National Statistics. This website details all known current and past occurrences worldwide of the names URIDGE and EURIDGE. It provides family history of these families as opposed to one particular pedigree. Scroll down for [names and variants](#) of the names.

There are three main family groups, originating from branches in [Sussex](#) and [Devon](#). Several descendants of these branches have emigrated to [Canada](#), [New Zealand](#), and the [United States of America](#).

Detailed [narratives](#) are available and can be easily accessed by clicking on a section, or by [searching the website](#). Additionally there are [descendant charts](#) of the main families. You can also find a series of databases on [births](#), [marriages](#) and [deaths](#), and [wills](#) that are linked to the One-Name Studies.

A summarisation of [resources](#) searched to date, and a list of [sources](#) in the narrative section, details what records are included in the One-Name Study. Additional information is available on the website. There are also [lists](#) available.

Additionally, you will find information on the website. I hope that you enjoy your visit!

Kathleen Uridge's Collection

As mentioned in the previous blog [The Will of William Uridge](#), Kathleen Uridge has kindly loaned a significant number of photographs and documents. I am in the process of scanning these and adding the information into the database.

I particularly liked two photographs. One of Kathleen's father [Frank Uridge](#), taken during World War 1.

Also his brother, [Richard John Uridge](#) together with his wife [Lillian Ellen Uridge née Bennell](#).

I am indebted to Kathleen for providing me with this opportunity. I have been researching this family since the early 1980s and it is wonderful to now see their photographs.

Introduction: Presentation Approach

- **Overwhelming number of options**
- **Focus is on a selection of options available:**
 - **Easy Option - Blog**
 - **GEDCOM-based Publishing**
 - **PHP-based Website**
 - **Tailor-made Website**

Introduction: Evaluation

■ Technical Skills:

- +++ Challenging, large learning curve may need additional support
- ++ Fairly easy, up and running within an hour
- + If you can create e-mails you can do this

■ Maintenance Effort (For each update)

- +++ Allow more than one hour
- ++ Less than one hour
- + None, or very little

■ Maintenance Cost*

- +++ Monthly outgoings of over £3 less than £5
- ++ Monthly outgoings of over £1 less than £3
- + Free

■ Advantages

■ Disadvantages

*** Maintenance Costs does not include the family history program**

Why Publish to the Web?

Advantages

- **Virtual presence**
 - **1980 – 2001: 20 contacts by letter, or Family History Meetings**
 - **2001 – 2006: 150+ contacts due to website & search engines**
- **Shares your research with others & encouragement to others to share with you**

Disadvantages

- **Increase efforts – maintaining the data, and the increase in data received**
- **Possible increased costs (for some methods)**

Create a Blog - Using Google www.blogger.com

The screenshot shows the Blogger homepage with a dark blue header. On the left is the Blogger logo (an orange 'e' in a square). To its right is the word 'Blogger' in white. Further right, there's a sign-in section with the text 'Sign in to use Blogger But first, where do you blog?'. Below this are two links: 'New Blogger Using your Google BLOGGER account' and 'Old Blogger Using your Blogger account'. The main content area has a light beige background. It features a large announcement box titled 'Check out the new Blogger!' with a notepad icon. The text inside says: 'We're out of beta and ready to go. There's new stuff like labels, drag-and-drop template editing, and privacy controls. [Take a tour](#) We're already moving some lucky people, but you can cut the line and switch now. New accounts get the new Blogger, of course.' Below this text is a blue button labeled 'SWITCH NOW' and a link to 'Need more info? See our [help with switching](#) guide.' To the right of the text are three overlapping screenshots of the Blogger interface: 'Add and Arrange Page Elements', 'My Blog is cool! (Thanks!)', and 'Blog Readers'. Below the announcement box is a section titled 'What is a blog?' with a 'TAKE A QUICK TOUR' button. This section contains four icons with labels: 'Publish thoughts' (notepad icon), 'Get feedback' (speech bubbles icon), 'Post photos' (photo icon), and 'Go mobile' (mobile phone icon). To the right of these icons is a section titled 'Create a blog in 3 easy steps:' followed by a numbered list: 1. Create an account, 2. Name your blog, 3. Choose a template. At the bottom of the page, there's a small line of text: 'A blog is your easy-to-use web site where you can quickly post'.

Create a blog in 3 easy steps:

- 1 Create an account
- 2 Name your blog
- 3 Choose a template

A blog is your easy-to-use web site where you can quickly post

Step 1 of 3: Create a Google Account

1 CREATE ACCOUNT

2 NAME BLOG

3 CHOOSE TEMPLATE

We are creating your account on the new version of Blogger. This version has all the Blogger features plus new post labels, drag-and-drop template editing and privacy controls. Furthermore, it is a lot more reliable.

When you sign in, remember to choose **new Blogger** and sign in with your Google Account.

Are you looking for blogs that you have already created? [Sign in to old Blogger](#)

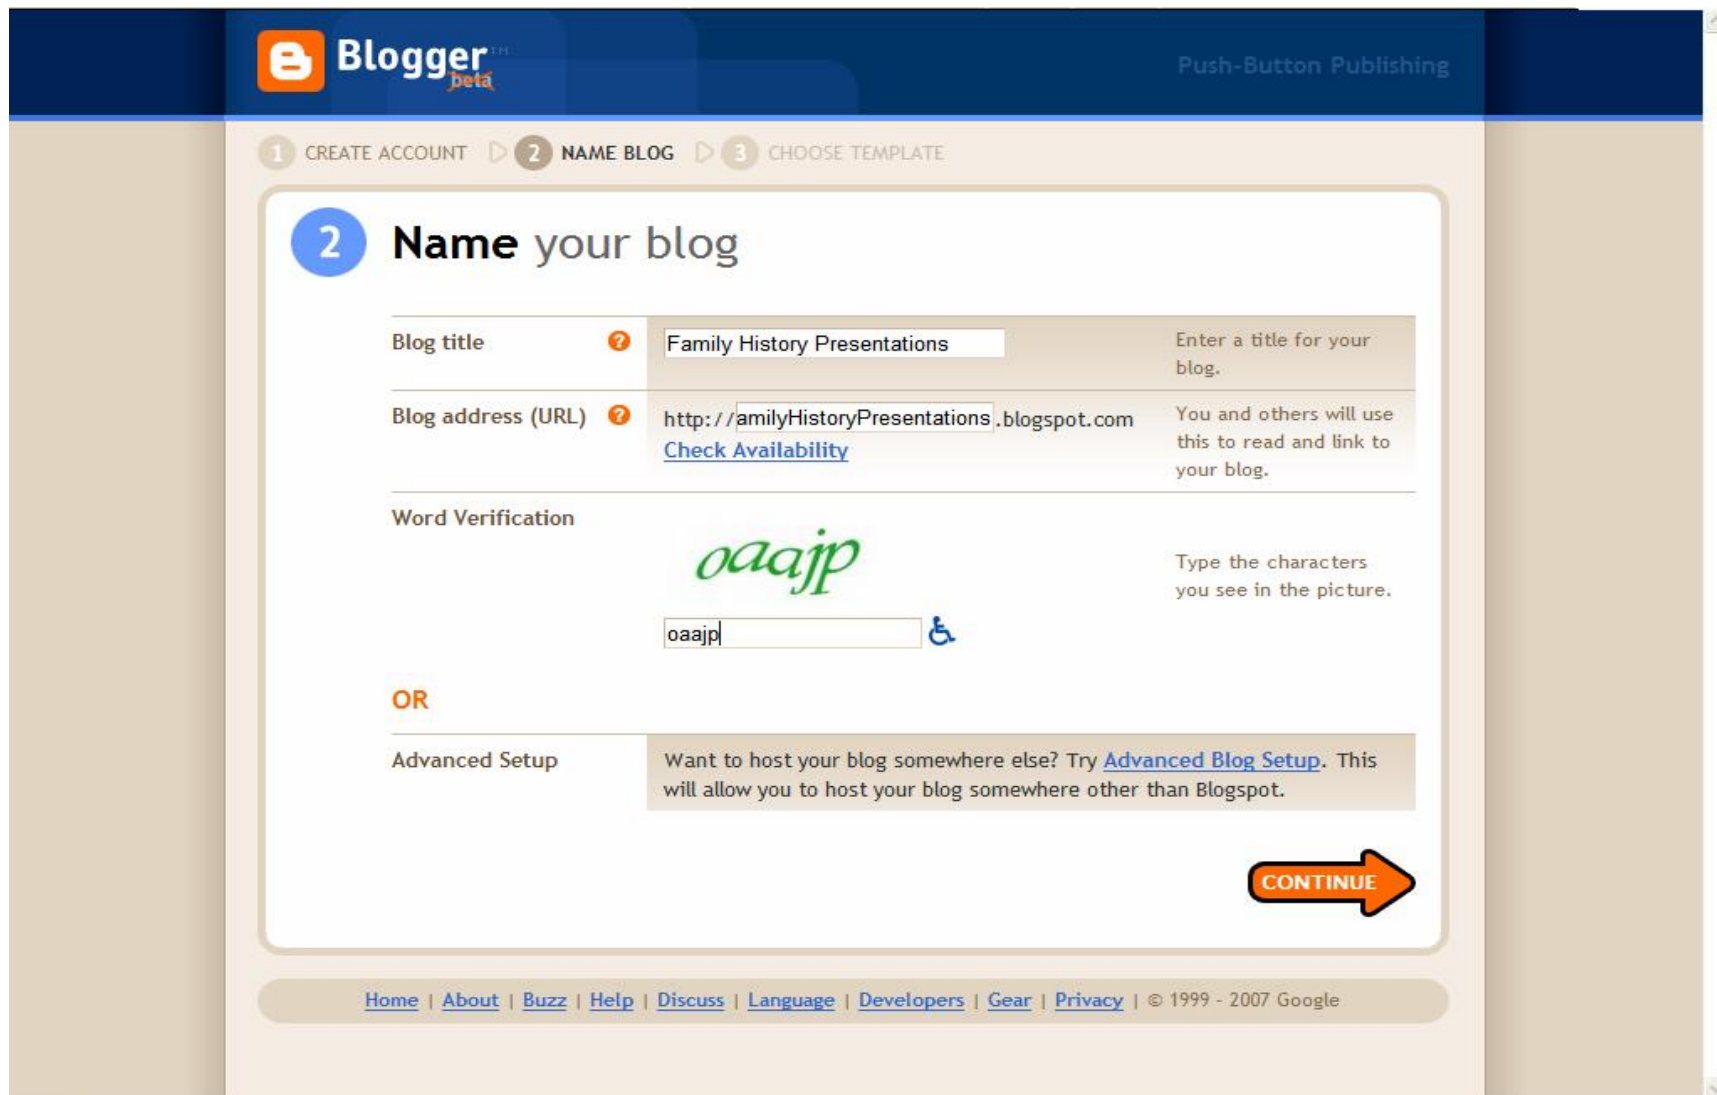

1 Create a Google Account

This process will create a Google account that you can use on other Google services. If you already have a Google account perhaps from Google Mail, Google Groups or Orkut, please [sign in first](#)

Email address (must already exist)	<input type="text" value="teresa.pask@googlemail.com"/>	You will use this address to log in to Blogger and other Google services. We will never share it with third parties without your permission.
Enter a password	<input type="password" value="....."/> Password strength: _____	Must be at least 6 characters long.
Type password again	<input type="password" value="....."/>	
Display name	<input type="text" value="Family History Presentations"/>	The name used to sign your blog posts.
Word Verification	 <input type="text"/>	Type the characters that you see in the picture to the left.

Step 2 of 3: Name Your Blog

The screenshot shows the Blogger 'Name your blog' setup page. At the top, the Blogger logo and 'beta' tag are visible, along with the text 'Push-Button Publishing'. A progress bar indicates three steps: 1. CREATE ACCOUNT, 2. NAME BLOG (current step), and 3. CHOOSE TEMPLATE. The main heading is '2 Name your blog'. Below this, there are three input fields: 'Blog title' with the value 'Family History Presentations', 'Blog address (URL)' with the value 'http://familyHistoryPresentations.blogspot.com' and a 'Check Availability' link, and 'Word Verification' showing a green image of the characters 'oaaip' and a text input field with the same characters. To the right of the 'Word Verification' image is a note: 'Type the characters you see in the picture.' Below the 'Word Verification' section is an 'OR' separator. At the bottom, there is an 'Advanced Setup' section with a note: 'Want to host your blog somewhere else? Try [Advanced Blog Setup](#). This will allow you to host your blog somewhere other than Blogspot.' A large orange arrow button labeled 'CONTINUE' is positioned at the bottom right. The footer contains links: Home, About, Buzz, Help, Discuss, Language, Developers, Gear, Privacy, and copyright information: © 1999 - 2007 Google.

BloggerTM beta Push-Button Publishing

1 CREATE ACCOUNT ▶ 2 NAME BLOG ▶ 3 CHOOSE TEMPLATE

2 Name your blog

Blog title  Family History Presentations Enter a title for your blog.

Blog address (URL)  <http://familyHistoryPresentations.blogspot.com> You and others will use this to read and link to your blog.
[Check Availability](#)

Word Verification

 Type the characters you see in the picture.

OR

Advanced Setup Want to host your blog somewhere else? Try [Advanced Blog Setup](#). This will allow you to host your blog somewhere other than Blogspot.

FAMILY HISTORY PRESENTATIONS

11 FEBRUARY 2007

Guild of One-Name Studies Presentation February 17 2006

Seminar: Publishing your one-name study

The day promises to be an information packed one, with each of the speakers being an expert in their own field. Maurice Hemingway's one-name journals have won the Guild's "best Journal" award, Teresa Pask has won awards three times in the last five years for her one-name website and Colin Ulph published his "Ulph Family History" in 2005.

Customize: Choose New Temple

The screenshot shows the 'Family History Presentations' website interface. The top navigation bar includes links for 'Posting', 'Settings', 'Template', and 'View Blog'. The 'Template' link is highlighted, and a sub-menu is visible with options: 'Page Elements', 'Fonts and Colours', 'Edit HTML', and 'Choose New Template'. The 'Choose New Template' link is highlighted with an orange box. Below the navigation bar, the main content area is titled 'Add and Arrange Page Elements' with a subtitle 'Click and drag to rearrange page elements on your blog.' and buttons for 'PREVIEW', 'CLEAR EDITS', and 'SAVE'. The main content area displays a preview of a blog layout with a 'Navbar' section, a 'Family History Presentation...' section, a 'Blog Posts' section, and a sidebar with 'Blog Archive' and 'About Me' sections. Each section has an 'Edit' link. There are also 'Add a Page Element' links in the sidebar and at the bottom of the main content area.

Results: Still Not Quite Right!

What is the Global Tree project?

The Global Tree is an ambitious project to build a searchable database of genealogical data. Our project is different from other "world" tree type web sites because we allow you to interact with your data and with other genealogists in new ways. Here's what makes us unique:

- Genealogists will be able to post messages on your file and on individuals in your file. The integrity of your data will not be compromised in any way and you can delete these messages at any time. By doing this, you can have others immediately interacting with you.
- We will analyze your genealogy to help you find other genealogists to work with, through our [Matching](#) technology.

Why should I contribute my data?

The Global Tree is the cornerstone to helping genealogists find their families. Contributing your data not only helps you find your ancestors, but you help thousands of others as well. After uploading your data, you will see how easily our web site allows you to interact with other genealogists searching for the same ancestors. You can change your mind at any time and

[feedback](#)

Upload Your GEDCOM File

To contribute to the Global Tree, you will need a GEDCOM file with your genealogical information. A "GEDCOM" is a file generated by a family tree program. In most major family tree software packages, you can export your file to GEDCOM format. If you have your GEDCOM file stored in a ZIP file, you may upload that file to save time. You should name your file something that others can associate with, such as "Ancestors of John Smith".
All information on living individuals in your file will be hidden from viewing by anyone other than the owner of the file. This includes all sources, notes, and facts about living individuals.

Name your file:

Select your file: [Browse...](#)

☒ Include in GeneaNet (Recommended) [Read More](#)

☒ Share Limited Pieces of My GEDCOM (Recommended) [Read More](#)

[Switch to Advanced Mode](#) [Upload](#)

Our system detected that you have already uploaded one or more GEDCOM's. Are you trying to update an existing file? This form should only be used to add a file. To update your file, [click here](#) and select Update next to your file.

Other users will never be able to copy or download your file. If you have any questions about the uploading process, see our [Frequently Asked Questions](#) or send us [feedback](#).
Uploading your file can take a long time. Depending on your connection, the upload can also terminate on its way. If your upload does not fully transfer, we will not process a partial file. You can be sure that your file was sent properly when you get a message that says: Congratulations. If you have trouble uploading your file, give it a few tries first before giving up. If you continue to have problems, we suggest you use [Family Tree Legends](#), which allows you to publish your file to GenCircles with ease.

Step 2 of 3 continued: File Preferences

URIDGE-EURIDGE One Name Study

File Title:
URIDGE-EURIDGE One Name Study

File Description:
Here you can describe to other users what kind of data can be found in your file. Often users explain the predominant geographical regions of their research, or describe areas where they are seeking more information. The description text will appear on your file's start page, right below the title. Descriptions are completely optional. You can edit this description as many times as you'd like, and it will immediately show up on your file's start page. **HTML is permitted in this message.**

I research all occurrences of the name, as opposed to a particular pedigree. I would welcome any contributions or information regarding (E)URIDGE or variants, and the associate families. Any information given will be credited to the contributor. Visit my website on <http://www.uridge.org>

Save Changes

File Options:
☐ Include in GENDEX (Recommended) [Read More](#)
☐ Include in GeneaNet (Recommended) [Read More](#)
☒ Hide all Notes on all individuals
☒ Hide all Sources on all individuals
☐ Fix Split Notes - Use this option if your notes appear to have words split in half.

Privatization Level:
☒ **Standard Privatization** Only the name and sex of living individuals will be shown. All other information on living individuals will be hidden from the view of anyone but the owner of the file.
☐ **No Privatization** No privatization will be applied. All information on both living and dead individuals will be shown.
☐ **First Name Privatization** This privatization option is the same as Standard, except that the first name of every living individual will be changed to the word "Living". John Smith would change to Living Smith.
☐ **Full Privatization** All traces of living individuals are removed. This includes name and sex, as well as ANY data whatsoever on living individuals.

Specify:

- File Title
- File Description
- File Options
- Privatization Level

File Preferences – GEDCOM Sharing continued

GEDCOM Sharing:

GEDCOM sharing allows users to download small fragments of submitted GEDCOM files on a controlled basis. You can decide whether you'd like to share your files like this or not. **At no time will this feature allow a user to download your whole GEDCOM file. This feature also respects any privacy settings you placed on your file (including your preferences on whether to show notes and/or sources on your file).**

Here are the benefits to sharing small portions of your GEDCOM:

- You contribute to the global genealogy community by sharing your work.
- Without this feature enabled, users are forced to re-type any data that you have published to GenCircles. By enabling this feature, you save other genealogists the time-consuming task of re-typing.
- You will get cited as the source for the data, so you will get full credit for your work. When users have to re-type data, they don't always give you a source record.

GenCircles is all about sharing! By choosing to share, you are doing a great service to your fellow genealogists.

- ☐ **Multiple Ancestors** This level of sharing is the **most beneficial** to other genealogists. It allows others to extract an individual, their immediate family, and several generations of ancestors. # of Ancestor Generations to Allow
- ☐ **Immediate Family** This option allows a researcher to extract the main individual, plus his immediate family (spouses, parents, & children).
- ☐ **Individual Only** Only single individuals can be extracted from your GEDCOM. This limits other genealogists in that they cannot extract any family information.
- ☒ **No Sharing** No sharing of your file with other researchers.

- **PHP stands for *PHP: Hypertext Preprocessor*.**
- **PHP is an HTML-embedded scripting language. Much of its syntax is borrowed from C, Java and Perl with a couple of unique PHP-specific features thrown in. The goal of the language is to allow web developers to write dynamically generated pages quickly.**
- **It normally requires the following to be present on your web site:**
 1. **PHP (a scripting language, 4.0 or higher preferred)**
 2. **MySQL (a database, 4.0.1 or higher preferred, but will also work on earlier versions back to 3.23.0)**
 3. **You may also need an FTP program**

PHP Websites: What Does That Mean to a Family Historian?

- It is a powerful way to **manage** and **display** your genealogy data on the internet, all without generating a single page of HTML. Instead, your information is stored in MySQL database tables and **dynamically** displayed in attractive fashion with PHP.
- It **stores** your data on your server instead of on your own hard drive. Alternatively, you can create a GEDCOM, and upload it from your website
- You can make it **private** so that **only** you can see the data. Or you can give **access** to a few other family members, or everyone. You can also allow other people to add information.
- It is installed on a web server (that has a MySQL database)
 - Use a PHP Family History Program:
 - ◆ PhpGedView
 - ◆ *The Next Generation of Genealogy Sitebuilding*©
- Does setting up a web server sound too complicated?

PHP-based Family History Program

- **A much simpler way is to use a web-hosting solution**
 - **Provides web hosting services and products focused and specialised in collaborative genealogy**
 - ◆ **Ourroots.info**
 - 5,000 individuals - \$4.95 / per month + Optional adds on
 - 5,000+ Advanced Package \$9.95 / per month + Optional adds on
 - ◆ **PGVhosting**
 - 5,000 individuals - \$5.95 / per month (includes options)
 - 5,000+ Advanced Package \$8.95 / per month

Publishing Your Family History to the Web

Introduction

Evaluations: Easy Option - Blog

Evaluations: GEDCOM-based Publishing

Evaluations: PHP-based Website

Evaluations: Tailor-made Website

How Do I Do It?

The screenshot shows the homepage of the URIDGE, EURIDGE One-Name Study website. At the top, there is a navigation bar with links for [Sussex], [Kent], [Devon], [Australia], [New Zealand], [Canada], and [USA]. Below this is a banner image featuring a group of people and a man in a military uniform. The title 'URIDGE, EURIDGE One-Name Study' is prominently displayed, followed by the text 'Registered with the Guild of One-Name Studies (Member 293)'. A second navigation bar includes links for [Surnames], [Narratives], [Lists], [BMD], [Census], and [Home].

The main content area begins with a welcome message: 'Welcome to the One-Name Study for Uridge, Euridge', dated 'Last Changed Date: 4 February 2007', with links to 'Uridge Blog' and 'New or Changed Narratives'. On the left side, a vertical list of links is provided: Home, What's New, Sussex, Kent, Devon, Australia, New Zealand, Canada, USA, Surnames, Narratives, Lists, BMD, Census, Resources, About Me, Search this Website.

Two orange callout boxes with black borders highlight specific features:

- The first box, titled 'Static Pages, with very little change', has arrows pointing to the links for Australia, New Zealand, Canada, and USA.
- The second box, titled 'Surnames, Narratives, Lists Frequently updated', has arrows pointing to the links for Surnames, Narratives, and Lists.

The main text describes the uniqueness of the name, noting only 121 instances in the UK Office of National Statistics database for 2002. It details the website's content, including family history, origins, and variants. A map of the United Kingdom is shown on the right, titled '1881 UK Census Distribution URIDGE and EURIDGE', with a legend indicating the distribution of the names. The bottom of the page mentions 'URIDGE or EURIDGE researchers' and provides a link to 'contact me' for further information.

Drill down on a County/Town

Tailor-Made Website Using Dreamweaver & Second Site: Evaluation

Technical +++¹

Maintenance +++²

Cost ++/+++

Advantages

- Very customisable – look-and-feel of narratives section can be also be unique
- Second Site is very quick to learn and easy to use. The results are “award winning”
- The publishing direct from your data reduces data maintenance significantly
- Requires best-practices – maintaining sources, and sentence construction

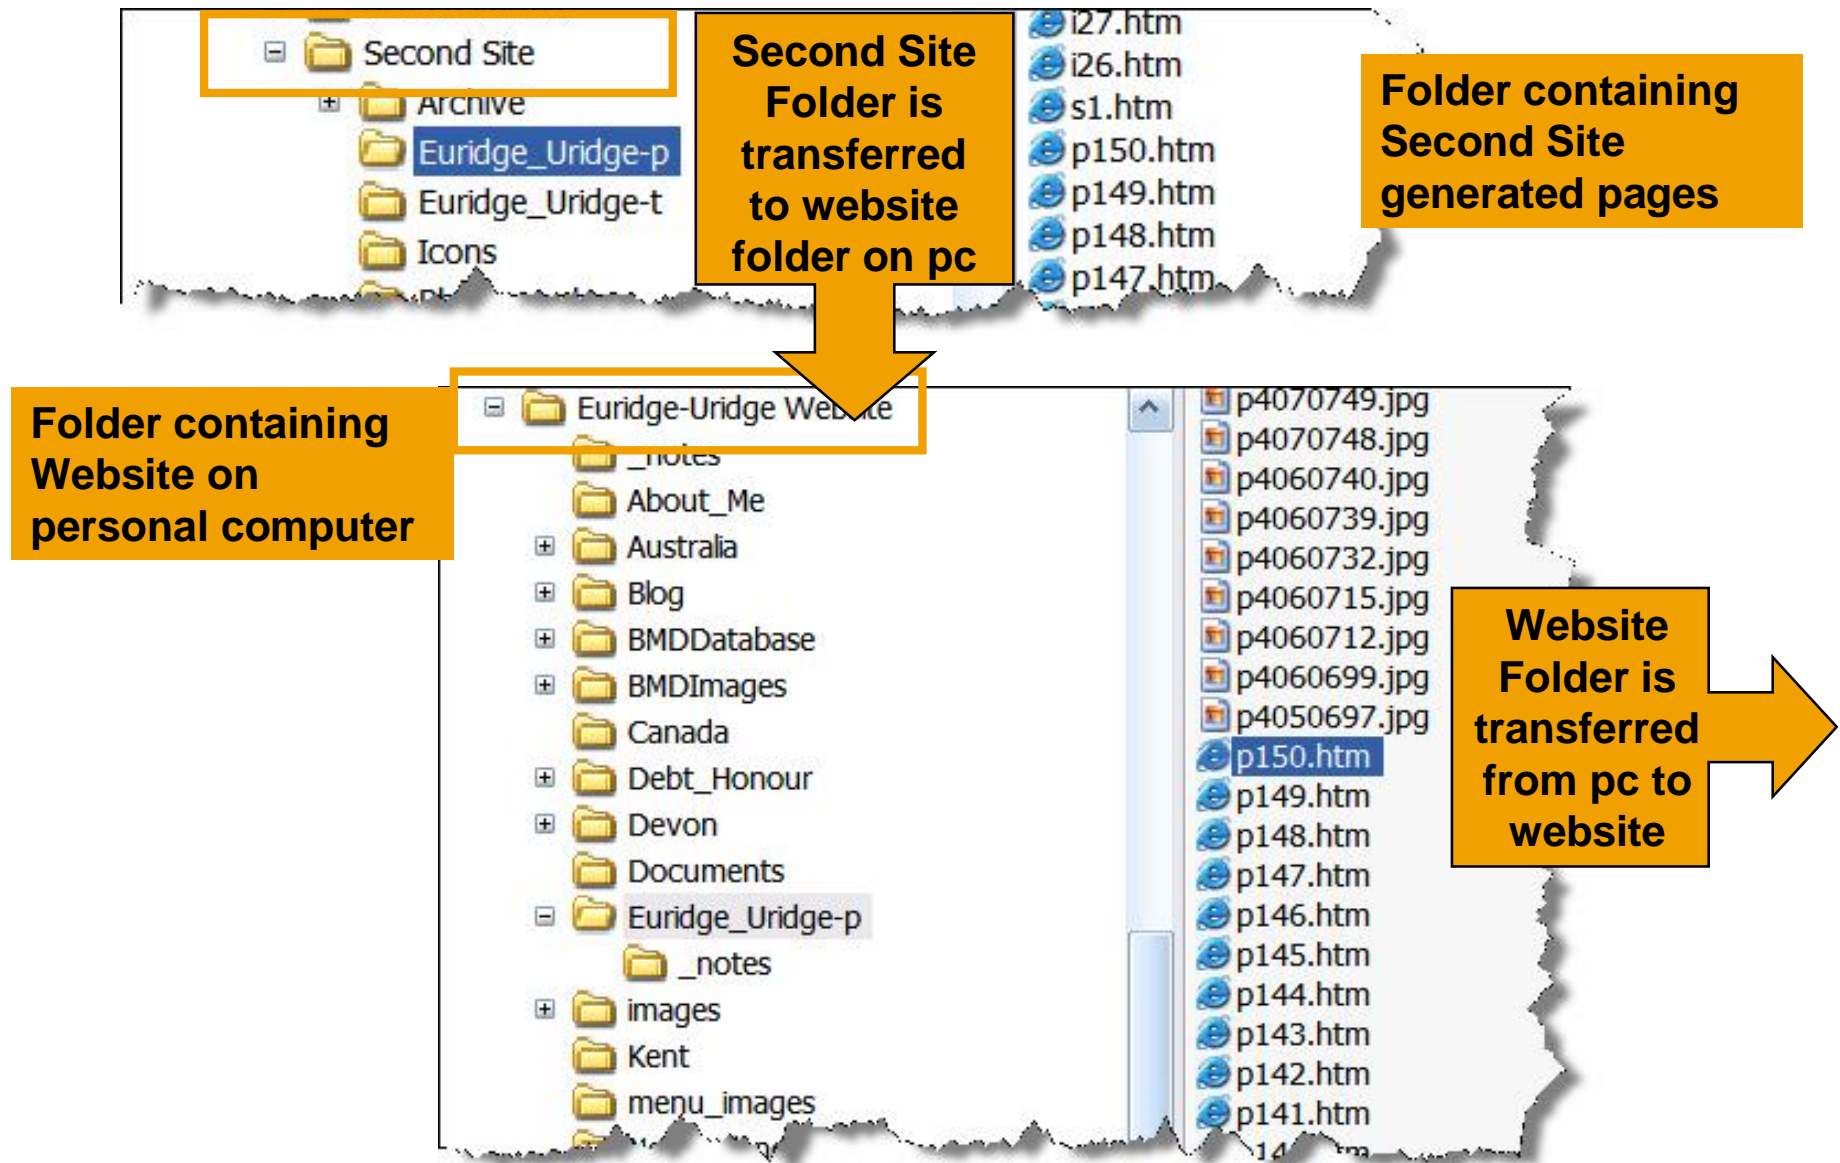

¹ Refers to website/domain setup

² Includes FTP to website

Disadvantages

- Initial design setup of your own website, and the learning curve of the web editing software can be very high and challenging
- Dreamweaver [or other editing tool] is expensive
- Initial outlay for domain & hosting (2-year contract) is expensive.
- *Secondsite* only works in conjunction with *The Master Genealogist*
- Your content may need some initial data cleanup
- The uploading process to your website can be time consuming

Upload to Website: Transfer folder

File Transfer Protocol – FTP Options

“FTP or File Transfer Protocol is used to connect two computers over the Internet so that the user of one computer can transfer files and perform file commands on the other computer.”

www.wikipedia.org

- **Used to transfer files from your home computer to the hosting server**
- **Publish personal websites, blogs and podcasts – although many have their own ftp inbuilt**
- **Ideal for transferring all types of music, photos, and video files**

- **Macromedia / Front Page** has inbuilt FTP

Other software available

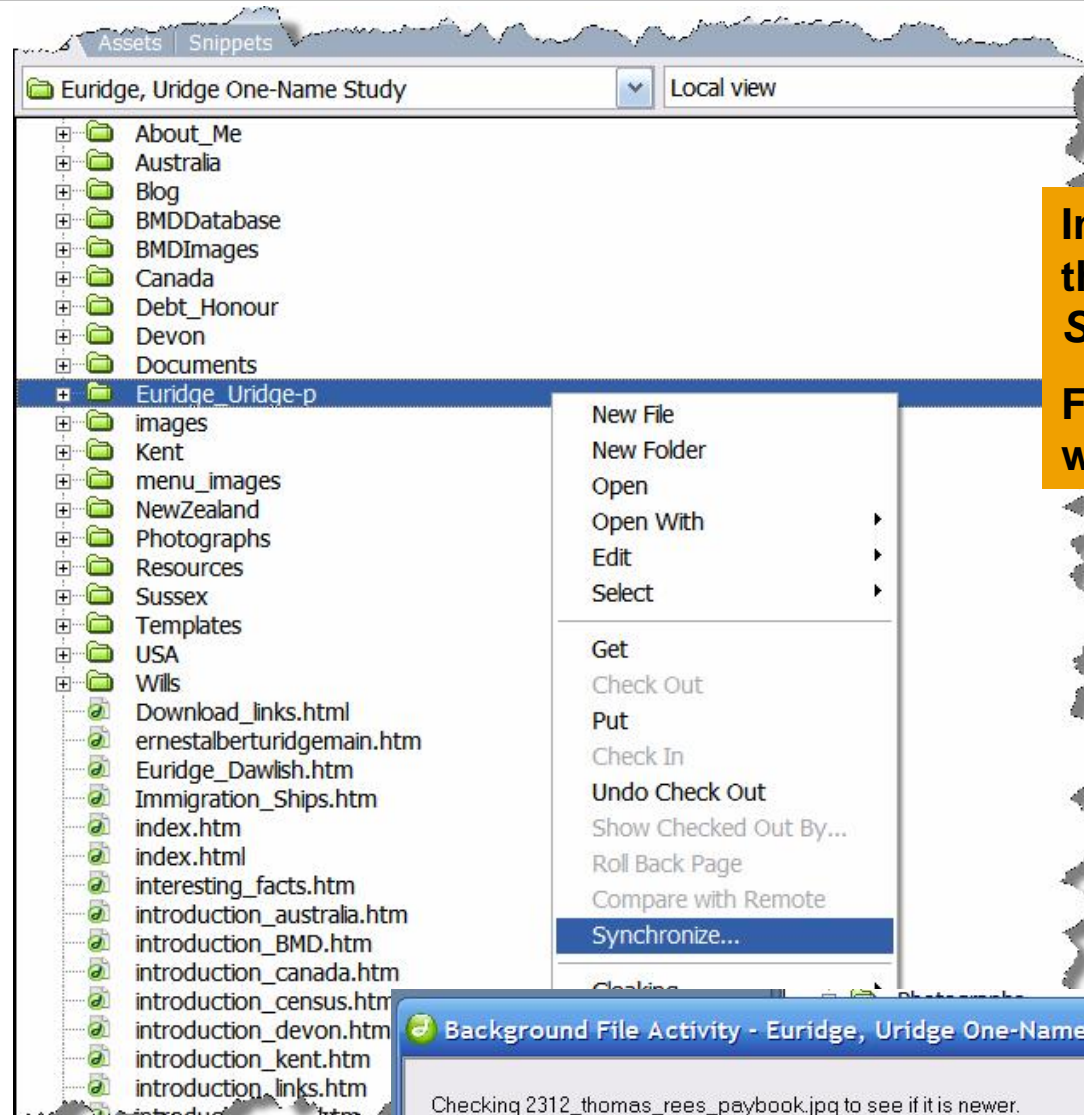

A comparison is available at www.wikipedia.org

- **CuteFTP (GlobalScape)**
<http://www.globalscape.com>
Free Trial CuteFTP Home \$39.99

- **WS FTP Home**
http://www.ipswitch.com/products/ws_ftp/home/index.asp
\$39.95

- **SmartFTP** <http://www.smartftp.com/>
Free

Dreamweaver has built in FTP software

In Dreamweaver you can use the *Put* function, or *Synchronize*

For one file, folder, or the whole website

CuteFTP Software

CONNECT
Connect with ease

TRANSFER
Drag and drop files

MANAGE
Schedule, queue & transfer multiple files concurrently

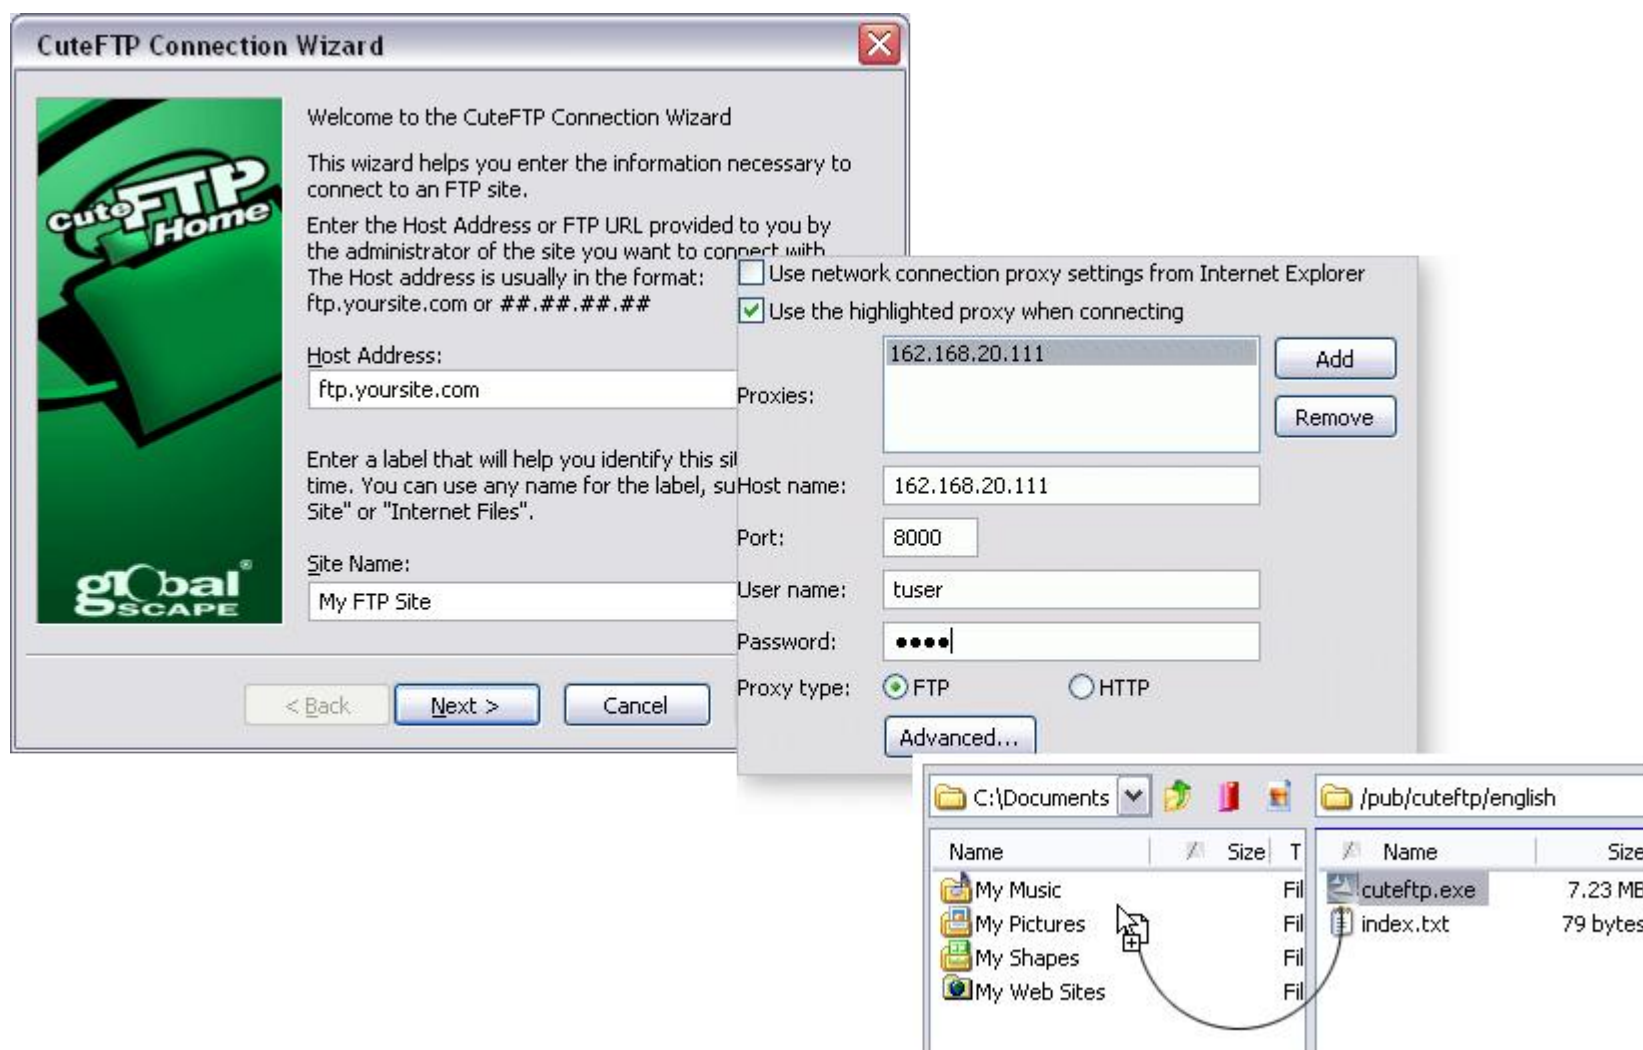

EDIT
Includes a built-in HTML Web editor

SECURE
128-bit SSL

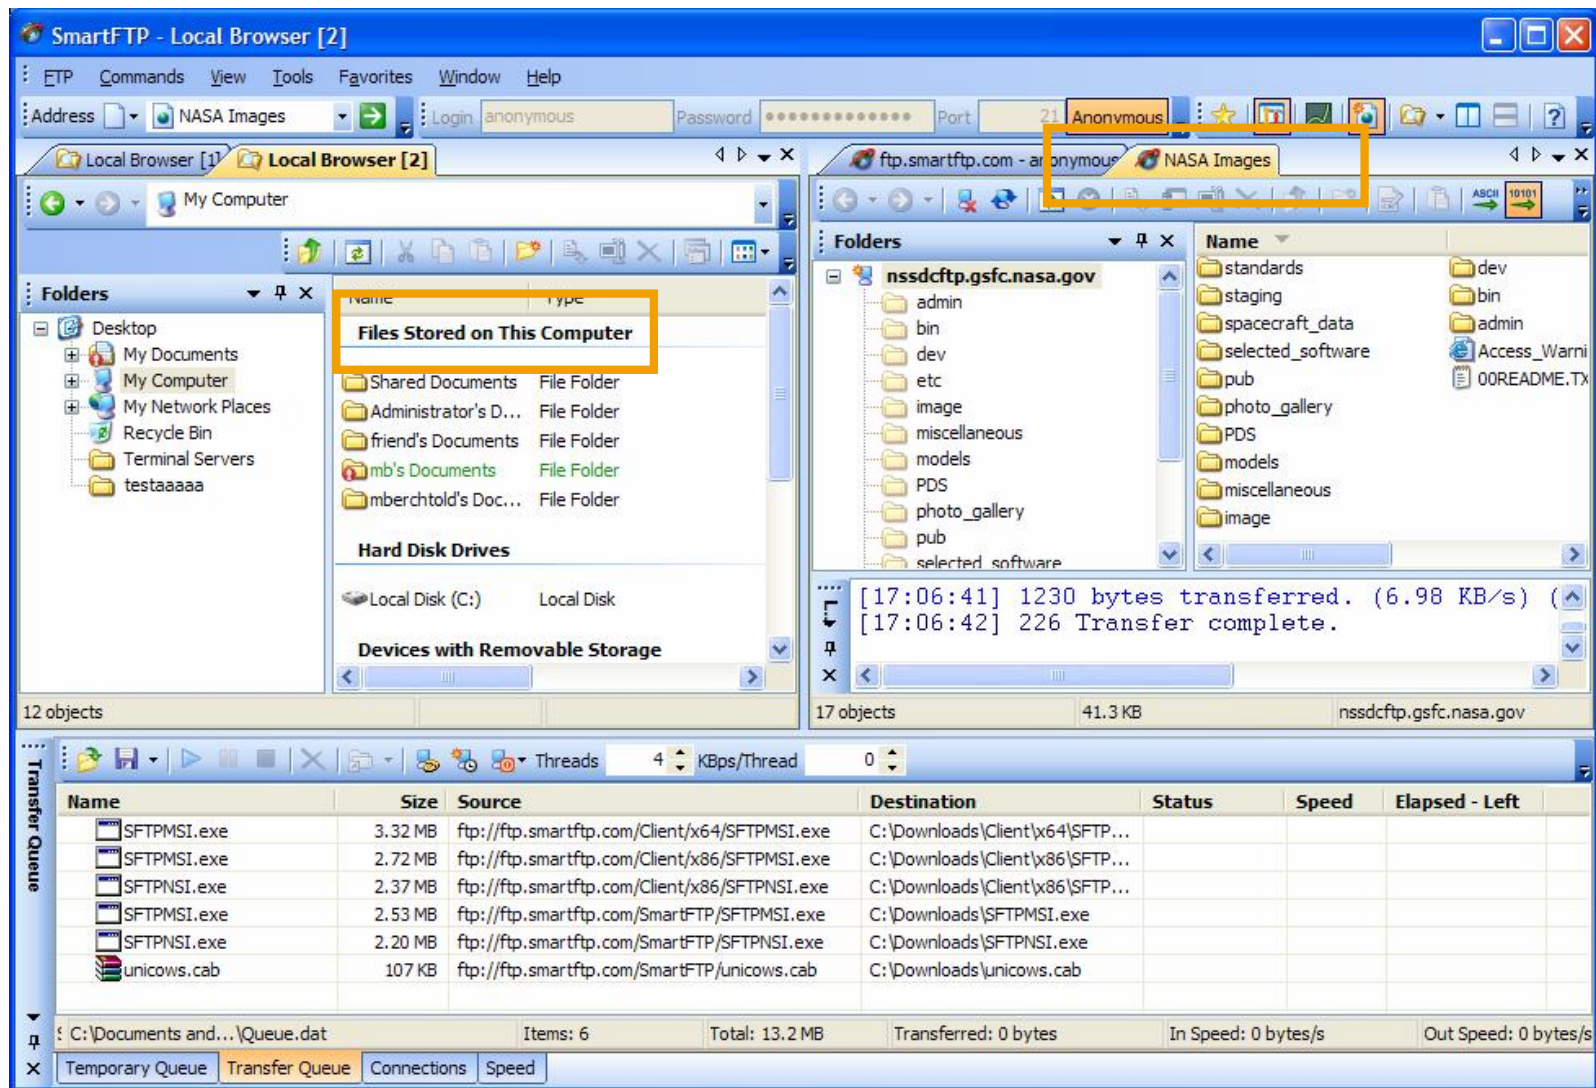

The screenshot displays the CuteFTP 8.0 interface. The title bar reads 'GlobalSCAPE - CuteFTP 8.0'. The menu bar includes File, Edit, View, Tools, Window, and Help. The toolbar contains various icons for file operations. The left pane shows the local drive 'C:\Program Files\GlobalSCAPE\CuteFTP 7 Home' with a list of files including sm.dat, tips.txt, license.txt, Release Notes..., tagtips.dat, CABINET.DLL, zlib.dll, zip32.dll, unzip32.dll, CuteFTP.chm, DBConverter.dll, and SSL.dll. The right pane shows the remote directory '/pub/cuteftp/english' with files cuteftp.exe and index.txt. At the bottom, a table lists the transfer queue with columns for #, Local filename, Address, <->, Size, Progress, Local, and Ren. The status bar at the bottom indicates 'Ftp:globalscape.com, 2 object(s), 7.23 MB' and includes a help icon.

#	Local filename	Address	<->	Size	Progress	Local	Ren
1	sm.dat	ftp.glob...	→	377 bytes	0%	C:\Program Files\GlobalSCAPE\CuteFTP 7 H...	/pub
2	tips.txt	ftp.glob...	→	6.53 KB	0%	C:\Program Files\GlobalSCAPE\CuteFTP 7 H...	/pub
3	license.txt	ftp.glob...	→	12.79 KB	0%	C:\Program Files\GlobalSCAPE\CuteFTP 7 H...	/pub
4	Release Notes.txt	ftp.glob...	→	18.69 KB	0%	C:\Program Files\GlobalSCAPE\CuteFTP 7 H...	/pub
